

BUSINESS SUMMARY

MARZIANI InMERSION SYSTEMS develops immersive sound systems delivering uniform, high-fidelity audio across theme parks, museums, cinemas, live venues, and gaming environments. Through BARANDIKO, the business also applies acoustic surveillance, AI, multi-spectrum imaging, and autonomous drones to border security and defense applications.

PROBLEM STATEMENT

Conventional audio delivers inconsistent coverage, distortion, and power demands, while border surveillance faces limited detection, false alerts, and resource-intensive monitoring.

SOLUTION

MARZIANI InMERSION SYSTEMS fills this gap with:

- ✓ Phase-coherent Planar Matryxx arrays delivering uniform coverage and exceptional clarity.
- ✓ Venue-specific configurations engineered for varied footprints and acoustic conditions.
- ✓ Energy-efficient hardware designed for continuous commercial operation.
- ✓ BARANDIKO solutions applying acoustic intelligence to specialized defense and security requirements worldwide.

PRODUCTS AND SERVICES

MARZIANI InMERSION SYSTEMS provides immersive platforms, professional loudspeakers, subwoofers, custom engineering, manufacturing, installation, commissioning, calibration, and support, while BARANDIKO develops AI-enabled acoustic surveillance, C-SWAP systems, directional sensing, autonomous drones, and tailored defense solutions.
